PHILIPPE BIHOUX

**CEO of AREP, mineral resources
specialist and author**

Philippe Bihouix is engineer. He worked for 25+ years in various industrial sectors including engineering, construction, transport, energy, chemicals, telecommunications and aerospace, in Europe, Africa or Asia. Since 15 years, he explores the questions of energy transition, non-renewable resources consumption, sustainable innovation and their technological aspects. He is author of numerous articles, studies and several books, in particular *The age of low tech: towards a technically sustainable civilisation* (Bristol University Press, 2020) and the comics *Ressources: un défi pour l'humanité* (Casterman, 2024).
